

Scientific journal *Vojno delo*

INSTRUCTIONS FOR AUTHORS (short version)

Vojno delo is a scientific journal that publishes the results of scientific research in the field of military sciences, as well as papers in the areas of security studies, law, economics, and political science that are related to defence and security issues. The journal's priority thematic areas include geopolitical processes, the strategic environment and strategic actors, global, regional, and national security, the defence system, military activities, as well as contemporary challenges in defence planning and the development of military capabilities.

Structure of the manuscript

The manuscript should include the following elements: title, author name, affiliation, abstract (150–250 words), keywords (5–10), introduction, main body of the text, conclusion, references, and summary.

The recommended length of the manuscript is **40,000 characters with spaces, including footnotes**, excluding the list of references and the summary.

Citation and references

The journal uses the APA **citation style** (7th edition), based on the **author–date** system in the text, with a list of references provided at the end of the manuscript

Language of the manuscript

Manuscripts may be submitted in **Serbian (Cyrillic script)** or **English**.

Required documentation

A manuscript will be considered only if it is accompanied by a **signed Author Statement**.

Peer-review procedure

The journal applies a **double-blind peer review process**, and each manuscript is evaluated by at least two independent reviewers. The final decision on the acceptance of the manuscript is made by the editorial board.

Before being sent to reviewers, manuscripts are checked for plagiarism and unethical use of artificial intelligence tools.

An author may publish only one paper per calendar year (volume) in the journal, regardless of whether the paper is single-authored or co-authored.

The number of authors per paper is limited to two. In exceptional cases, when the nature and scope of the research justify the participation of a larger number of researchers, the editorial board may consider manuscripts with three or more authors.

Note

Detailed instructions for manuscript preparation are available on the journal's website: https://www.vojnodelo.mod.gov.rs/sadrzaj.php?id_sadrzaja=83
